## The "Cospatrick."

**Further Particulars of the Burning of the English Emigrant Ship—The Sufferings of the Survivors.**

The London "Times" gives the following account of the loss of the Cospatrick, which is made up from different distapches received: "The Cospatrick had been sixty-seven days at sea, when at midnight on the 17th of November the alarm was given that she was on fire. The flames were at first, as it appears, confined to the fore part of the vessel. Either by the sudden shriveling up of sails and tackle, or by the want of nerve of a steersman, command was lost over the vessel and she 'went about'—that is he turned her head round to the wind, and the wind blew flame and smoke in upon the ship. From that moment her fate can scarcely have been doubtful. The captain had 'turned in,' but he immediately came on deck and attempted to put her before the wind. We are also told that the appliances the ship had for extinguishing the fire were tried in vain. The wind, blowing from the bows, carried

FLAMES AND VOLUMES OF SMOKE

Throughout the after part of the vessel. The noise and the pungent smoke must quickly have roused both passengers and crew. The boats in the fore part of the vessel had been set on fire, but there was a rush to the other boats. One which was on the davits, hanging over the starboard side, was filled till its stern dipped in to the sea and then the boat capsized. The first and the second officer each took charge of one boat, and these boats successfully got off. The boat of Mr. Romaine, the first mate, contained besides himself six seamen and twenty-five passengers. The names of the members of the crew in her were A. Dutton, the butcher, Nicolle Cunningham, Turvey, Rusleen and Wood. The other boat was under command of Henry MacDonald, the second officer, and that is said to have contained about the same number of persons. Boats and ship did not part at once. From the boats the men (it is to be observed that the boats are described as containing only men) had the unenviable opportunity of observing, without being able to relieve, the confusion which ultimstely must have prevailed on board ship. Nearly

FOUR HUNDRED AND THIRTY PEOPLE PERISHED.

In their sight. We are not told whether they left the ship before or after the capsizing of the starboard-quarter boat. The masts were seen to fall, and at last the flames reached the stern and there was an explosion under the poop-deck. After the burning of the vessel the remained afloat for two days, and the boats remained by her in the hope, perhaps, of obtaining provisions. Captain Elmslie, Mrs. Elmslie, their son and Dr. Cadle are described as surviving the fire and then jumping over board to escape death from the sinking of the vessel. Dr. Cadle is said to have taken the captain's son in his arms before jumping over board, and then, it is added, that those four persons were all drowned together. It was the 19th before the ship went down. The two boats kept together for two days and they parted company in rough weather. This brings us to the night of the 21st. Of Romaine's boat we now hear nothing more. Of Mr. MacDonald's boat we learn that on the 22d they suffered much from thirst, and next day Bentley, a Lancashire laborer, aged thirty-seven, who had gone out with his wife and four children, fell overboard and was drowned. The disastrous history of the voyage is now

A NARRATIVE OF MADNESS AND DEATH,

And of life prolonged by the most horrible expedient of shipwrecked men. On the 26th, before daylight, a bark passed close to the boat. She was hailed, but no answer came. The 27th was Friday. There were now left in the boat five men—MacDonald, second mate; Lewis and Hamilton, able seamed; Cottes, ordinary seamen, and another. The corpses of their companions had been thrown overboard. Two of the men who remained lost their reason, and the others where faint and drowsy. It is said that MacDonald was roused at the moment when their rescuers bore down upon them by one of his companions who had become insane, and who bit MacDonald's heel. It had rained that day, but they were unable to catch a drop of water. In this state they were found by the British Sceptre, an iron sailing ship, which left Calcutta and Dundee on the 18th of September, a week later than the date the emigrants started from Gravesend. The two who had gone mad died on board. The British Sceptre conveyed MacDonald, Cottes and Lewis to St. Helena. There they remained three days, and left on the 9th of December by the mail steamer Nyanza, as the quickest mode of transit."

KNIGHT'S AMERICAN MECHANICAL DICTIONARY," a descriptive word-book of tools, instruments, machines, chemical and mechanical processes, civil, military, engineering; a history of inventions; general technological vocabulary; and digest of mechanical appliances in science and the industrial and Fine Arts, by Edward H. Knight, civil and mechanical engineer, &c., illustrated with 5000 engravings.

"Thus Time brings all things, one by one, to sight,
And skill evolves them into perfect light."
Lucretius. Book V.

Mr. Knight besides being of high attainment in his profession has been for years in the U. S. patent office, and editor of the Patent office reports to Congress, and had acquired a singular aptness in describing the application of mechanical principles. For 25 years he has been gathering material for this great work, and at the very focus of the mechanical thought of the country, he saw the necessity for just such a description of the tools, machines, processes and appliances of the arts and sciences as this book is, and while doing it he enlarged his plan, giving the history of all important inventions, and gathering into one compact work of 2400 pages an immense amount of knowledge. Sold in parts or book form. Mr. Tuckfield will canvass for subscribers.

## STEAMSHIP COMPANY

### Limited.

**Capital $300,000, in 6000 Shares of $50 each, with power to increase to $500,000,**

PROVISIONAL DIRECTORS:

R. FINLAYSON, Esq., J. H TURNER, Esq.,
RT. BEAVEN, Esq., L. BOSCOWITZ, Esq.,
WM. WILSON, Esq., CAPT. CLARKE.

The D.P.S.S.Co., Limited, is organized for the purpose of acquiring first-class steamers to perform the large and increasing trade between Victoria and San Francisco by a thoroughly British Columbia Company formed on a broad and comprehensive basis.

The intentions of the Company are as follows:

To have larger, more commodious and more seaworthy steamers than have hitherto run on this route.

To make the passage between Victoria and San Francisco within three days.

To make Victoria the headquarters of the Company.

To have the expenditure and profits of the trade distributed in British Columbia.

To facilitate the development of the coal trade of Nanaimo.

To make *via* Victoria the favorite route of the passenger travel between Puget Sound and San Francisco.

The operations of this Company will be made dependent upon the subsidy being obtained from the Dominion Government for which an application has been made.

The Provisional Directors are in possession of the returns of the trade of 1873 and 1874 between Victoria and San Francisco, which demonstrate that the D.P. S.S.Co., Limited, will be a profitable enterprise. They invite subscriptions from the people of British Columbia for the Stock of the Company, confident that it will be found to unite an additional source of prosperity to this Province with a good investment to shareholders.

Legitimate prudential considerations will make the calling up of the capital contingent on the granting of a subsidy by the Dominion Government to this Company.

Applications for Shares, which will be allotted according to priority of application, to be made at Messrs. Turner, Beeton & Tunstall's office, Wharf street, Victoria.

We have full files to the 20th of January.

The Ontario elections resulted in the return of 50 Ministerialists, 33 Oppositionists, and four Independents, a gain of 2 for the Government. The Opposition carried Toronto, in one of the ridings defeating Hon. Mr. Crooks, one of the Ministers of the Crown. Wm. McDougall was defeated in North Middlesex. Rykert, leader of the Opposition, is defeated.

The firm of Chapman, Fraser & Tybee, wholesale grocers and wine merchants, Montreal, have made an assignment of their estate. Their liabilities foot up about $71,000. Very few of their creditors are in the city. A meeting of creditors is called for the 28th inst.

M. W. Bro. Judge W. Mercer Wilson, Grand Master of Canadian Masons, is dead.

George Brown, the champion oarsman, whose serious illness was recently reported, is recovering.

By the judgment of the Court of Appeal at Toronto, briefly mentioned in our despatches of yesterday, Mr. Walker, who was elected in January last for London, is convicted of personal bribery, and disqualified from being a candidate at an election for seven years. This penalty is severe but it is just, and we can only express the opinion that had other prominent cases been appealed, the result would have been that Sir John Macdonald, Mr. Plumb, and other politicians would have been in company with Mr. Walker to-day, and would have assisted him to show to all aspiring politicians the salutary effect of a pure election law. —*Ottawa Free Press.*

The annual meeting of the Montreal Telegraph Company was held yesterday afternoon, when the retiring directorate, Sir Hugh Allan, President, &c., was re-elected. The increase of business compared with 1873 is about ten per cent.; profits, about twelve per cent. on the entire capital, It was decided to further increase the capital stock by ten per cent. to be allotted to the shareholders *pro rata*, payable one-half the 1st of February, and the remainder the 1st of July. The patent acquired for sending two messages simultaneously in opposite directions has been improved, enabling four messages to be so sent.

Messrs. Thompson and Smallpiece, of the *National*, have made a most distinct, abject, and complete apology, for the utterance of the wanton, wicked and unfounded slander which they recently published on the Hon. Geo. Brown.

HALIFAX, N. S., Jan. 19.—It is understood that Mr. Colin Campbell, member for Digby, and Hon. Staley Brown, of Yarmouth, are to become members of the Local Government, the latter to be Treasurer, in place of Mr. Annand, who retires from that office. Chas. Annand has been appointed Queen's printer.

It has been found impossible to keep the British army up to the required standard by voluntary enlistments during the past few years, and a discussion is going on in the London press as to the means to be adopted to remedy the trouble. General compulsory service, something on the German plan, is talked of, and is recommended by military men.

We understand the Chief Engineer of the Pacific Railway intends entertaining the members of the various corps of surveyors, in a few days, to a dinner at Mr. O'Meara's.—*Ottawa Free Press.*

## English Mail.

LONDON, Jan. 13.—The Rev. John H. Newman, the eminent Catholic divine, has written a pamphlet of ten chapters addressed to the Duke of Norfolk in reply to Gladstone's famous expostulation the Vatican decress and civil allegiance. He declares that Gladstone's aspersion of the English Catholics are "underserved, his tone uncharitable, and his conclusions untrustworthy." The *Schola Teeologia* alone is competent to determine Papal and Synodal utterances." "It must be confessed," he continues, that some among us in past years have stretched truths until they were nearly snapping, and have done their best to set the house on fire, leaving others to extinguish the flames; I see no inconsistency in being a good Catholic and a good Englishman." He then draws the distinction between spiritual and secular allegiance. "If," says he, "Parliament should pass an Act compelling Catholics to attend Protestant service once a week, and the Pope should forbid them, I would obey the Pope; if I was a soldier or sailor, and the Pope bid all Catholics leave the army and navy, I would disobey him in time of war." The Rev. Father, in conclusion, says:—"Infallibility is declared a matter of faith in thought merely, not in action; there is only one oracle of God, the holy Church with the Pope as head."

BERLIN, Jan. 18—The Chancellor has submitted to the Federal Council an ordinance prohibiting the importation into Germany of American potatoes, as a measure of precaution against the introduction of the Colorado beetle and the spread of the potato disease.

LONDON, Jan. 18.—To-day's *Times*, in its leading editorial article, says:—"In the gloom surrounding us one thing is perceptible. All men are arming. Germany is arming *en masse*, and surrounding nations, including the best part of the world, cannot do otherwise. Momentary dreams of peace have fled away. Germany recognizes the stern necessity that what she won by arms she can only hold by arms, and while arms are in her hands." The *Times* confesses that Germany cannot raise a third army. Her hopes are in her navy.

The Right Hon. W. E. Forster, in a public speech at Bradford to-night, alluding to the United States, suggested that the Centennial Exhibition at Philadelphia would be a good opportunity for discussing patent laws. He did not think the withdrawal of the proposed Reciprocity Treaty would greatly injure Canadian trade with the United States. He referred to the retirement of Mr. Gladstone as an example of disinterestedness and selfsacrifice. He earnestly hoped that that statesman would not altogether quit political life.

A verdict has been rendered against Mr. Sampson, late City Editor of the London *Times*, who was sued by Mr. Rubery for libel, in charging him with being guiltily implicated in the Arizona diamond fraud. The defendant is required to pay £500 damages.

Within the last week the courts have been very busy in trying murder cases. On Wednesday Robert Taylor, a tramp, was convicted and sentenced to death for the murder of a woman whom he met on the highway, and whom he asked to give him half-a-crown. She could not afford that, but offered him sixpence. He seized her, and cut her throat in the presence of her little daughter. Four colliers were convicted of brutally torturing and killing an old man, and were sentenced, two to twenty years' and two to fifteen years' penal servitude. James Cranwell was found guilty of the murder of his paramour, and sentenced to be hanged; and the same sentence was passed on William Worthington for killing his wife. John Chatfield, a laborer, aged sixty-five years was convicted of killing his wife by kicking her, was sentenced to twenty years. Hugh Daley was convicted of the murder of a man, whom he beat to death with a poker, and was sentenced to death. Three men were convicted of the murder of a man who had offended them by refusing to give them sixpence "for a quart of ale," and were sentenced to death; and Sarah Ann Liddell, a married woman who had been deserted by her husband, was sentenced to be hanged for the murder of her illegimate child. While these murderers were being tried and sentenced —thirteen in a week—a schoolmaster in the military garrison at Purfleet committed an outrage on one of his pupils, aged only six years, and then killed her. One of the judges, exasperated by the depravity exhibited in one of the above mentioned cases, exclaimed: "My God! is this a Christian country?" No one replied.

**Nanaimo Election—A Card.**

NANAIMO, February 4th, 1875.

EDITOR COLONIST: Sir,—In reference to a Card from Mr. Bate which appeared in your issue of the 29th ult., representing that he had not solicited a single vote at the late Municipal election here, let me say that, however much that gentleman may desire to create this impression abroad, it is perfectly understood in his own neighborhood that such excessive modesty is not one of his characteristics.

This assumed disinterestedness on the part of Mr. Bate surely does not sound well in the ears of the people of Nanaimo, who are thoroughly aware that, the united and most sublime efforts of the officers of the Vancouver Coal Company, were put forth to secure his election; a result which even then would not have been attained had not the most palpably unfair means been resorted to with a view to that end.

In order that the truth of his statement may be proved, I herewith publicly challenge him to a bet of $500 (the loser to hand over the money to the Protestant Orphan's Home, in Victoria) that I am able to produce evidence in the shape of his own handwriting to prove that he did solicit a gentleman to vote for him on that occasion; and though unfortunate, it is nevertheless a notorious fact, that the poor Indian who carried his message was drowned in attempting to return to his home.

Should Mr. Bate decline my challenge, I think, Mr. Editor, you would only be performing your duty to the public if you made a statement of this fact through your columns, as in the interests of every man who wishes truth to prevail, I believe it to be desirable that such direct perversion of it should not be permitted to spread over the land uncontradicted.

## Important from Ottawa!

### Mr. Mackenzie Declines to Alter the New Terms!

### WALKEM WON'T APPEAL TO THE COUNTRY!

OTTAWA, Feb. 8.

Mackenzie declines to interfere with the New Terms as arranged by Lord Carnarvon. He says the appeal to England was final. Walkem insists it is not necessary to legislate on the New Terms, or appeal to the People to adopt them.

### Fall of the Uruguayan Government

LONDON, Jan. 21.

The River Plate Bank has received the following dispatch from Montevideo:—The Uruguayan Government has fallen, and the rebels are in power. There is general alarm and business is suspended. The British squadron is in the harbor. Pedro Varela, President of the Senate, has been elected by the rebels Provisional President of the Republic.

THE MUNICIPAL ELECTION.—We have just read a most remarkable paragraph in the Heathen Chinee organ published in this city; and we are puzzled to know whether the writer has parted with his senses or imagines that his few readers are fit subjects for the polite attention of Superintendent Sharpe? The writer lays it down that because Mr. Drummond's return as Mayor has been petitioned against, the City will have to pay the entire costs of the suit should he be turned out of office. The proposition is this: If Mr. Drummond has been guilty of illegal acts in getting where he is, the City, and not Mr. Drummond, will have to pay the penalty! Let us carry absurdity a step further and see where it would end. During the recess some 13 members of the Dominion House of Commons have been unseated for doing just what Mr. Drummond is charged with doing. Several of the unseated were supporters of the Mackenzie Government; and according to the reasoning of the organ the country ought to pay the costs in which they were cast. The suit, remember, is not against the City, but against the Man; and Mr. Drummond might as well call on the Ratepayers to pay his fine upon conviction as a misdemeanant as to ask them to "pay the piper" to whose tunes he danced into office during the recent election contest. The Mayor and the organ might as well understand, first as last, that any attempt to dip into the City Treasury for any such purpose will be at their peril. As to the position of the City Barrister, he is so well able to defend his own honor that we deem it unnecessary to reply to the organ's insinuation respecting him; but we will say, that had Mr. Robertson's legal advice been acted upon in the preparation of the Voter's List, a petition against the legality of the election would never have been heard of.

PETITION FILED.—The petition of Mr. Charles Morton against the return of Mayor Drummond, was filed yesterday. The petition recites that the List of Voters was made out contrary to law, inasmuch as persons whose names were not on the Assessment Roll were allowed to vote; that intimidation was used by the successful candidate to carry his ends; that no polling day was named in the Bylaw; that the Returning Officer's Proclamation was illegal, as under it all persons whose names were on the Assessment Roll might vote whether they paid their taxes or not; and that if a scrutiny were to take place it would be found that a majority of the legal votes had been cast for the petitioner. Arguments will be heard at an early day.

DEATH OF THE $25,000 COW.—On Saturday last the Fourth Duchess of Oneida died at Hon. T. J. Megibben's. She was purchased by Megibben & Bedford, Oct. 1872, at Campbell's New York Mills sale for $25,000. She leaves a bull calf, three months old, by Fourteenth Duke of Thorndale, said to be one of the finest Dukes in the country. There was, of course, no insurance on her. Thus the $25,000 heifer has met the same fate as the $40,500 cow. Mr. E. G. Bedford has been particularly unfortunate, having heretofore lost two costly bulls.—*Paris Kentuckian, Dec. 20.*

ENGLAND VS. AMERICA.—A London dispatch to a New York paper says: "Mr. Noucher will visit America this spring in his yacht, the Triona, the crack cutter-yacht of England. He will give our fast yachts a chance to carry off the Queen's Cup, which Ashbury failed to win. He will be proposed for membership in the New York Yacht Club at the annual meeting."

CHARLEY ROSS.—The Gay and Festive Premier has been absent from his post of duty eight months to-day. By a strange coincidence the boy Charley Ross has been absent from his home exactly the same period, having disappeared on the 9th June, 1874—the very day on which the Premier left Victoria!

THE GAS burned as dimly as a farthing dip last night.

## THE COOLEST PROJECT YET!

### A Railway to the Land of the Anrora Borealis!

### SAN FRANCISCO TO BE ANNIHILATED!

WASHINGTON, Feb. 1.—It is reported that a scheme is on foot for the construction of a trans-continental railroad from Duluth, Minnesota, on the shore of Lake Superior, to Behring's Straits, through the British Possessions. The parties working for the scheme are Jay Cooke and the Northern crowd, but it has not yet assumed any definite shape.

Another arrangement is to run the Northern Pacific Railroad to Bismark and then to Behring's Straits, and cut off the trade from San Francisco.

THEATRE ROYAL.—Mr. J. H. LeRoy must have felt highly complimented by the large audience which assembled for his benefit last evening. The performance was under the patronage of Sir James Douglas, K.C.B. The piece played was "Jessie Brown, or the siege of Lucknow." In which Mrs. Phelps, Mr. Sawtelle and Mr. J. H. LeRoy highly distinguished themselves. They were assisted by the balance of the troupe, also several local volunteers. The "Chough and the Crow" as an interlude went off very well. The performance ended with "Jumbo Jum," an Ethiopian farce.

DEATH OF CHARLES KINGSLEY. — The news-gatherers for the American press neglected to telegraph the death of Canon Kingsley, who died about ten days ago in England. He was a preacher, lecturer, novelist, poet, philosopher and philanthropist, and successful in all these characters. Yet it is not likely that he will occupy a high place in the estimation of the future, for his works are uneven, not one occupying the first rank in its class. His moral character was admirable, and superior to his intellectual capacity, varied and brilliant as it was.

THE CITY OF PEKING, (next to the Great Eastern) the largest steamship afloat, has arrived at San Francisco. She will run in the China Line. She was placed in the dry dock and an examination of her bottom showed that it was covered with barnacles.

FORT CANBY.—A general order from the U.S. War Department announces that the military post on the north side of the mouth of the Columbia river, Washington Territory, now called Fort Cape Disappointment, will hereafter be known and designated as Fort Canby.

THE steamship Los Angeles arrived in the harbor at 6¼ o'clock yesterday morning, bringing 65 passengers, 274 tons of freight, and a large mail. She will sail again at 6 o'clock to-morrow morning from Brodrick's wharf.

THE MAILS.—The Los Angeles and Mastick brought very large mails yesterday. The lastnamed brought the bags that were left behind at Kalama on Friday.

THE *Tribune's* Washington special says the President has sent to the Senate the Hawaiian Reciprocity Treaty, signed—Washington, January 30th. Ratifications are to be exchanged within eighteen months, and the treaty to remain in force seven years thereafter.

STOCKS have fallen very low at San Francisco. Some speculators who imagined themselves very rich about a fortnight ago are now as poor as church mice. The *Bonanza* lead seems to have been worked out, if, indeed, it ever existed.

AMONG the importations by the Los Angeles were an engine and boiler for Kinsman & Styles, contractors for the Penitentiary; and 16 sewing machines for the Hon. Chief Commissioner—the last to be used in patching the Ministry.

NAVAL.—H. M. S. Repulse has been suddenly ordered from Payta to Valparaiso, and will not arrive here before August if all this year. Letters and papers for H. M. S. Rocket came by yesterday's mail.

LEPINE COMMUTED.—The sentence of death passed upon Lepine, of Red River, has been commuted by the Governor-General to two years' imprisonment and forfeiture of his political rights.

MLLE LEONA JAURVIN, who smuggled into New York a large number of dresses, was sentenced to pay a fine or $2000 and three months' imprisonment.

JOHN J. RUSSELL, thanking the public for their liberal patronage, begs to inform them that he will be off the road for about a month, as his carriage is being repainted for the summer. **

AN exhibition of Captain C. E. S. McDonald's trained Indians will be held at Platt's Hall, San Francisco, on the evening of the 13th inst.

ANOTHER LINK.—Tenders are asked for grading the section of the Canadian Pacific Railroad from Fort William to Shebandowan.

ASH WEDNESDAY.—Lent commences to-day.

THE RAYMOND SEWING MACHINE.—Intending purchasers of sewing machines should select a machine which combines cheapness with undeniable excellence. The possession of these qualities by the Raymond Machine has so increased the demand for them that during the past year a second manufactory has been built in order to keep up a sufficient supply. The Raymond Machine is equal if not superior to the high priced American machines and costs about half the price. The Raymond is easy to learn and light running, and is supplied, without extra charge, with all the new improvements. A fresh supply received by A B. Gray, Albion House, Government street. Sole Agents for B. C. **

### Canada.

MONTREAL, Feb. 8.—The Grand Trunk R. R. reduced wages ten per cent to-day, and this afternoon all the conductors refused to go to work, save at the old rates. There are twenty long trains in the yard waiting for hands to run them. No freight trains left either way to-day. The train men in Brockville also struck.

## DELAYED DISPATCHES.

### Europe.

LONDON, Feb. 1.—Many reports are in circulation with regard to the future Liberal leadership. It is said that Forster does not personally want the post, and also that some Whigs and ultra non-conformists will leave the the party if Forster is chosen; while old Whigs, a few moderate Liberals, the bulk of the non-conformists, a great majority of the Liberals, and nearly all the Radicals are in favour of Forster. The number of his friends and opponents are about equal. The choice of the Marquis of Hartington, however, would not divide the party. Probably some of the candidates will be withdrawn before the party meeting to-morrow. A later dispatch says Forster has withdrawn from the candidacy for the Liberal leadership.

LONDON, Feb. 3d.—At a meeting of the Liberal party to be held to-day the supporters of Foster will present a programme of principles, comprising a universal establishment of School Boards, the assimilation of county and borough franchise, and the redistribution of Parliamentary seats and reform of land tenure. The Whigs refuse to indorse this platform, considering it to be too advanced. The meeting is expected to pass a resolution regretting the retirement of Gladstone. Goschen will then nominate the Marquis of Hartington for the leadership of the party. A number of Liberals, including Fawcett and Mundella, will attend the meeting in order to defend their position. They will state that while willing to give the Marquis of Hartington a general support they reserve the liberty of advocating their own opinions independently.

LONDON, Feb. 3d.—A meeting of the Liberal members of Parliament was held this evening; 137 were present, including Childers, Cowper, Temple, Lewis, Dillenger, Gladstone, Playfair. John Bright presided, and, on taking the chair, said that, although a Parliamentary leader was necessary, still each member had the right to reserve such individual liberty as honorable men required. A resolution regretting Gladstone's retirement was adopted. The Marquis of Hartington was unanimously elected as leader of the party.

LONDON, Jan. 29.—The Queen, who is at Osborne, has summoned the Cabinet Ministers to come there at once.

LONDON, Feb. 1.—5:30 A. M.—A Vienna special says the Pope has thanked Emperor Francis Joseph for his considerate application of the Austrian Reichstag laws.

LONDON, Jan. 28th.—The steamship Braunschwig, from Bremen for Baltimore, has arrived at Southampton having in tow the steamship Deutschland, from Southampton for New Yord, disabled by the loss of all the blades of her propeller. All well on both ships. These ships, when seen off Hurst Castle last evening, were mistaken for the Baltimore and New York.

LONDON, Jan. 29.—Archbishop Manning has issued a pamphlet of two pages in reply to Gladstone's expostulation, and maintains that the Vatican decrees have not estranged the condition of civil allegiance of Catholics; that it is as undivided as that of any other Christians. That the recent decrees have not extended the powers of the Pope. That the Ecumenical Council in no way touched the relations of Church and State; its decress merely declared doctrines which were already matters of faith. The Pope cannot therefore by virtue of either these decrees or his supreme authority make any claims upon his adherents of a nature to impair the integrity of civil allegiance. The spiritual authority of the Church condemns and declares not binding such temporal laws as deviate from the laws of God, and therefore impede the attainment of salvation. In regard to the supposition advanced that the Pope might attempt to depose the Queen of England, the writer remarks that as the Queen is wholly withdrawn from the Catholic Church, every condition is wanting which would render such a proposition justifiable. The Archbishop declares that the European Powers have entered into a systematic conspiracy against the Church, and warns them that they are thereby wrecking themselves. In conclusion, he says Gladstone's pamphlet invites Catholics to rebel against divine authority, and encourages schism, heresy, and deadly sin.

LONDON, Jan. 30.—Edward B. Sugden, Baron St. Leonards, formerly Lord Chancellor of England, died yesterday, aged 94.

### Eastern States.

WASHINGTON, Jan. 30.—The Smithsonian Institute has received a cable dispatch announcing the discovery at Berlin of a new planet, in right ascension 23 degrees, declination 18 degrees 26 minutes, of the 12th magnitude.

WASHINGTON, Feb. 3.—Merrill, of Vermont, called up the resolution by the Vermont Legislature protesting against the ratification of the proposed Canadian Reciprocity Treaty, and addressed the Senate in opposition to the treaty. Adjourned.

NEW YORK, Feb. 2.—Various theories are afloat in regard to the discovery of nearly a million dollors in a rag shop. Secret officers have the matter in hand. They concur in acknowledging the bills to be genuine. The officers of the bank say they know nothing about the pieces; whether the bills were sent to the Redemption Bureau of the Treasury Department, and there mutilated and afterward abstracted, is not known.

BALTIMORE, Jan. 29.—An examination of the accounts of the late James R. Howison, of Aunapolis, shows that he robbed nearly every person who reposed business trust in him. The losses are $150,000. Howison was regarded as a lawyer of the highest standing. Bishop Oderheimer, his father-in-law, and the officers and professors of the Naval Academy are among the sufferers.

### Colombia.

KINGSTON (Jamaica), Feb. 3.—A disturbance is reported in Aspinwall, in consequence of the imprisonment of Dr. Pigott, a British subject. A man-of-war has been ordered from here to Aspinwall to support the British Consul, who has been assaulted.

### Canada.

QUEBEC, Feb. 3d.—A large rock fell to-day at Cape Blanc, crushing a number of people. So far eight bodies have been found. No further particulars have been received.

A snow avalanche at Cape Diamond crushed a two-story house and buried a family of six persons named Gibson. The body of one has been recovered, and the rest are supposed to be dead.

### China and Japan.

The late failure of two of the prominent native banks has caused a good deal of malaise in the money market, and the settlement of the year's accounts has been more than unusually difficult.

The prevalence of small-pox both in Yokohama and Yedo is marked, but the epidemic is not violent, and the measures taken by the local authorities here to restrain it have had good effect.

Yanigawara, who remained behind at Peking to despatch such business as might remain to be settled after the late convention between Japan and China was signed, returned on the 24th ultimo, and landed under the usual salutes.

General Saigo, who commanded the Formosan expedition, has also returned and was received with much ceremony at Yedo.

The Oriental Bank has announced that it will in future accept the trade-dollars of the United States at a par with Mexicans.

A fire broke out on the night of December 31st, on the premises of Messrs. Schwartz & Co., jewelers, of No. 80 Main street, and soon spread backward toward Homura and sideways toward M. Orny's, the adjoining shop. Both were soon beyond possibility of rescue, and the fire seized on the dwelling-house of the Roman Catholic clergy at the back, which it soon destroyed.

On New Year's day, his Majesty received the heads of the government and officials to the seventh rank, at the palace. The foreign minister were also received.

### Death on an Altar.

**A Beautiful Young Woman Sacrifices Herself and Marks out Her Grave.**

A telegram from Honesdale, Pa., of Jan. 14th, says a religious fanatic, named Crissy Hocker, burned herself to death at White's Valley, the day previous. She was a young and accomplished woman, the daughter of William Hocker, a wealthy farmer. She had for five or six years labored, at intervals, under the hallucination that she had committed grievous sin against what she termed "her Immanuel," and was in the habit of building altars in her father's fields and sacrificing lambs as a burnt offering to appease the wrath of her offended deity. Thursday Mr. Hocker went to Carbondale after a load of coal. His daughter having manifested signs of a recurrence of her insanity, he left a hired man to look after her, her mother being dead. The man went away at noon, and did not return to the house. Mr. Hocker came back at about 2 o'clock in the afternoon. Entering the kitchen of his house, he was horrified to find the body of his daughter lying on the coal and ashes of what had been one of her altars, and burned to a crisp. Her face and the upper part of her body alone had escaped. She had constructed the altar or pyre out of a set of quilting frames. She had torn up a portion of the carpet and laid it on the altar, and made a pillow for her head. She reclined on her right side, and her cheek was resting on her head.

Notwithstanding the intense agony she must have endured, her face wore a calm and peaceful expression, and there was a smile on her lips. In the family Bible, which was found on the parlor table open at the Book of Job, was the following note, addressed to her father:

Dear Father: My Immanuel appeared to me to-day. He reveals to me that I have committed the Unpardonable Sin; which I can only obtain forgiveness for by passing through the cleansing of Fire. I will intercede for you, my dear Father. You will find my purified body in the north-east corner of the house. I wish to have my ashes buried in my Immanuel's ground at the northwest corner of the house. Good-by. Meet me in the Eternal Ground.

CRISSEY.

Mr. Hocker went to the corner of the house indicated in the note as the spot where the remains were to be buried, and found his daughter had staked out a space for her grave.

### Australia.

The Marquis of Normandy landed at Auckland on the 3rd of December, and was sworn in the same day at Auckland.

The Commissioners appointed for making suggestions as to the best mode of representing Victoria at the Philadelphia Exhibition have sent in their report. They propose that an exhibition shall be held in Melbourne in August next; also that the Government should grant £5000 in aid of the project.

Con Ward, actor, is dead.

Sullivan, the New Zealand murderer, has been remanded to New Zealand.

The South Australian *Advertiser* reports that "the Chief Secretary has received a telegram from the Hon. F. Barlee, Colonial Secretary, Perth, stating that contracts for the complete telegraph line from Albany to Eucla have been finally settled. Orders for the wire, materials, etc., of the South Australian portion have been transmitted to England, and tenders for the erection of the line will be shortly called for. Mr. Knuckey, who is returning per Gothenburg from Port Darwin, where he has been employed as superintendent on the overland line party, will be dispatched to lay out the new line from Port Augusta to Eucla."

From the Sydney *Herald* we give the following:

The result of the observations of the transit of Venus, on Wednesday, at our own station were highly satisfactory. Three out of the four stations had beautifully clear weather and successful observations. At Sydney, the day was exceeding fine and clear; and the observations at the observatory were made with three powerful telescopes. The ingress and egress of the planet were well observed; but nothing like the phenomena of the black drop, as described by the English astronomers, was seen; and the perfectly instantaneous breaking of it, described by the observers in 1769, was wanting.

Pleasant, seasonable weather has prevailed in Sydney during the past month; southerly and easterly winds have tempered the heat of the summer sun. A sufficient quantity of rain has fallen to keep the vegetation fresh and green. The news from the country districts is not altogether of a satisfactory character. The weather in some localities has been very dry, and the crops and grass have suffered in consequence. The wheat crop in some places has been good—equal to or exceeding the average yield; but in other districts the weather has been so dry, and the prospects so unpromising, that many farmers have cut down the crop for fodder for their cattle. On the coast the cereal has produced a better yield than in most years, the rust having been less destructive than usual,

The pastoral districts are now suffering from a longer drought than has occurred for some time, more especially the salt bush plains of Southern Riverina, where a fall of rain is much required to give a spring to the grass for the summer and autumn.

The closing session of Parliament was of short duration—less than a month having elapsed between the date of the first meeting and the desolution on the 28th ultimo. The Assembly had quietly settled to business, and the Electoral Act, which most people thought would have occupied two or three months was passed in one night by the timely concession on the part of the Government to demands for additional representation from quarters where, up to the last moment, it had been strenuously resisted.

The demand for labor, skilled or unskilled, is daily increasing, the rate of immigration being quite disproportionate to requirements. A public movement has already been initiated to promote the immigration of capable domestic servants.

On the 15th of December the annexation of Fiji to the British Empire was celebrated in Sydney by a public banquet to His Excellency the Governor, as the representative of the Crown in the negotiations with Cacobau, the ex-King, who with his two sons, Commodore Goodenough and others, were also guests.

Railway extension is being pushed forward as rapidly as circumstances will permit.

A JUSTIFIABLE RECOURSE.—With a wish to win love, many through diffidence refrain from taking any decided step; but the laws of custom, and the ingenious appliances of modern suasion, yield an annual relief to all who are thus afflicted through the medium of Valentines. A handsome assortment of these have just been received in anticipation of St. Valentine's Day.—T. N. HIBBEN. 1m**

A. GILMORE has just received a large invoice of *Oregon Tweeds and Flannels*, also, a large lot of *White Patent-fitting Shirts*, which will be sold CHEAP. Also, *Overcoats and Raglans, Boys' Clothing* and *Hats* of all sizes. **

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Coughs, Bronchitis, Asthma and Consumption.

The few compositions which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long, as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of **Coughs Colds, Consumption**, that can be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects that is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

## Ayer's Hair Vigor!

FOR RESTORING GREY HAIR

*TO ITS NATURAL VITALITY & COLOR*

Advancing years, sickness, care, disappointment, and hereditary disposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; often renews the growth, and always surely restores its color, when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brashy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrown with lively expression; falling hair is checked and stabilished; thin hair thickens; and faded or gray hair resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.
